## PUBLIKATIONEN (März/2016)

### 2016

The standard of care of patients with ARDS: ventilatory settings and rescue therapies for refractory hypoxemia.  
Bein T, Grasso S, Moerer O, Quintel M, Guerin C, **Deja M**, Brondani A, Mehta S.  
Intensive Care Medicine 2016; Intensive Care Medicine; May 2016.

Palliativmedizinische Konzepte in der Intensivmedizin – der Patientenwille als Maßstab.  
**Deja M**, Emmerich A, Denke C.  
AINS, May 2016.

### 2015

Randomized controlled clinical trial evaluating multiplex polymerase reaction for pathogen identification and therapy adaption in critical care patients with pulmonary or abdominal sepsis.  
Tafelski S, Nachtigall I, Adam T, Bereswill S, Faust J, Tammarkin A, Trefzer T, **Deja M**, Wernecke KD, Becker K, Spies C. Molecular Diagnostics of Sepsis Study Group.  
J Int Med Res. 2015; 43(3): 364-77.

Observational clinical study on the effects of different dosing regimens on vancomycin target levels in critically ill patients: Continuous versus intermittent application.  
Tafelski S, Nachtigall I, Troeger U, **Deja M**, Krannich A, Günzel K, Spies C, ABx Study Group.  
J Infect Public health 2015; 8(4): 355-63.

HFNC bei akuter respiratorischer Insuffizienz.  
Töpfer L, **Deja M**.  
Reihe DIVI Jahrbuch 2015/2016 1. Auflage ISBN: 978-3-95466-214-2. Hersg. Kluge S, Markewitz A, Jorch G, Putensen C, Quintel M, Sybrecht GW. Fortbildung und Wissenschaft in der interdisziplinären Intensivmedizin und Notfallmedizin.

### 2014

Long-term effect of computer-assisted decision support for antibiotic treatment in critically ill patients: a prospective 'before/after' cohort study.

Nachtigall I, Tafelski S, **Deja M**, Halle E, Grebe MC, Tamarkin A, Rothbart A, Uhrig A, Meyer E, Musial-Bright L, Wernecke KD, Spies C.  
BMJ Open. 2014; 4(12): e005370.

Voluntary peer review as innovative tool for quality improvement in the intensive care unit--a retrospective descriptive cohort study in German intensive care units.

Kumpf O, Bloos F, Bause H, Brinkmann A, **Deja M**, Marx G, Kaltwasser A, Dubb R, Muhl E, Greim CA, Weiler N, Chop I, Jonitz G, Schaefer H, Felsenstein M, Liebeskind U, Leffmann C, Jungbluth A, Waydhas C, Pronovost P, Spies C, Braun JP; NeQuI-Group (Netzwerk Qualität in der Intensivmedizin).  
Ger Med Sci. 2014 Dec 15; 12: Doc17.

Influenza A (H1N1)- vs. non H1N1-ARDS: analysis of clinical course.

Lars Töpfer\*, Mario Menk\*, Steffen Weber-Carstens, Claudia Spies, Klaus-Dieter Wernecke, Alexander Uhrig, Christian Lojewski, Achim Jörres, **Maria Deja**.  
Journal of Critical Care 2014 Jun; 29(3): 340-6.

Long-term recovery in critical illness myopathy is complete, contrary to polyneuropathy. Koch S, Wollersheim T, Bierbrauer J, Haas K, Mörgeli R, **Deja M**, Spies CD, Spuler S, Krebs M, Weber- Carstens S.

Muscle Nerve. 2014 Sep; 50(3): 431-6

Reply: TO PMID 24415656

Koch S, Wollersheim T, Spies C, **Deja M**, Weber-Carstens S.  
Muscle Nerve 2015; 51 (4): 625-6.

Intensivmedizinische Behandlung und deren Langzeitfolgen – die Patientenperspektive  
Denke C, **Deja M**.

DIVI 2014;5: 142-147.

## **2013**

Prone position during ECMO is safe and improves oxygenation.

Kipping V, Weber-Carstens S, Lojewski C, Feldmann P, Rydlewski A, Boemke W, Spies C, Kastrup M, Kaisers UX, Wernecke KD, **Deja M**.  
Int J Artif Organs. 2013 Dec 12;36(11): 821-32.

Antibiotic consumption and resistance: data from Europe and Germany.

Meyer E, Gastmeier P, **Deja M**, Schwab F.  
Int J Med Microbiol. 2013 Aug; 303(6-7): 388-95.

Potentially resistant microorganisms in intubated patients with hospital-acquired pneumonia: the interaction of ecology, shock and risk factors.

Martin-Loeches I, **Deja M**, Koulenti D, Dimopoulos G, Marsh B, Torres A, Niederman MS, Rello J; EU-VAP Study Investigators.  
Intensive Care Med. 2013 Apr; 39(4): 672-81.

Adult patients with nosocomial pneumonia: epidemiology, diagnosis, and treatment.

Dalhoff K, Ewig S; Gideline Development Group, Abele-Horn M, Andreas S, Bauer TT, von Baum H, **Deja M**, Gastmeier P, Gatermann S, Gerlach H, Grabein B, Höffken G, Kern W, Kramme E, Lange C, Lorenz J, Mayer K,

Nachtigall I, Pletz M, Rohde G, Rosseau S, Schaaf B, Schaumann R, Schreiter D, Schütte H, Seifert H, Sitter H, Spies C, Welte T.  
Dtsch Arztebl Int. 2013 Sep; 110(38): 634-40.

The German quality indicators in intensive care medicine 2013-second edition.  
Braun JP, Kumpf O, **Deja M**, Brinkmann A, Marx G, Bloos F, Kaltwasser A, Dubb R, Muhl E, Greim C, Bause H, Weiler N, Chop I, Waydhas C, Spies C.  
Ger Med Sci. 2013 Jul 16; 11.

## 2012

Computed tomography findings from patients with ARDS due to Influenza A (H1N1) virus-associated pneumonia.

Grieser C, Goldmann A, Steffen IG, Kastrup M, Fernández CM, Engert U, **Deja M**, Lojewski C, Denecke T.  
Eur J Radiol. 2012 Feb;81(2): 389-94.

Epidemiology, diagnosis and treatment of adult patients with nosocomial pneumonia. S-3 Guideline of the German Society for Anaesthesiology and Intensive Care Medicine, the German Society for Infectious Diseases, the German Society for Hygiene and Microbiology, the German Respiratory Society and the Paul-Ehrlich-Society for Chemotherapy.

Dalhoff K, Abele-Horn M, Andreas S, Bauer T, von Baum H, **Deja M**, Ewig S, Gastmeier P, Gatermann S, Gerlach H, Grabein B, Höffken G, Kern WV, Kramme E, Lange C, Lorenz J, Mayer K, Nachtigall I, Pletz M, Rohde G, Rosseau S, Schaaf B, Schaumann R, Schreiter D, Schütte H, Seifert H, Sitter H, Spies C, Welte T; German Society for Anaesthesiology and Intensive Care Medicine; German Society for Infectious Diseases; German Society for Hygiene and Microbiology; German Respiratory Society; Paul-Ehrlich-Society for Chemotherapy.  
Pneumologie. 2012 Dec; 66(12): 707-65.

Coincidence of traumatic tracheal rupture accompanied by ARDS. Illustrated by the example of a 17-year-old patient with multiple injuries.

Kleber C, van Scherpenzeel KM, Weidemann H, **Deja M**, Haas NP.  
Unfallchirurg 2012; 115 (6): 545-51.

## 2011

Strategies for diagnosis and treatment of iatrogenic tracheal ruptures.

**Deja M**, Menk M, Heidenhain C, Spies CD, Heymann A, Weidemann H, Branscheid D, Weber-Carstens S.  
Minerva Anesthesiol. 2011 Dec;77(12): 1155-66.

Blot SI, Serra ML, Koulenti D, Lisboa T, **Deja M**, Myrianthefs P, Manno E, Diaz E, Topeli A, Martin-Loeches I, Rello J; for the EU-VAP/CAP Study Group. Patient to Nurse Ratio and Risk of Ventilator-Associated Pneumonia in Critically Ill Patients. Am J Crit Care. 2011 Jan; 20(1): e1-e9.

Patient to nurse ratio and risk of ventilator-associated pneumonia in critically ill patients.

Blot SI, Serra ML, Koulenti D, Lisboa T, **Deja M**, Myrianthefs P, Manno E, Diaz E, Topeli A, Martin-Loeches I, Rello J; EU-VAP/CAP Study Group.  
Am J Crit Care. 2011 Jan;20(1): e1-9.

Experimental high-volume hemofiltration with predilutional tris-hydroxymethylaminomethane for correction of low tidal volume ventilation-induced acidosis.

Russ M, **Deja M**, Ott S, Bedarf J, Keckel T, Hiebl B, Wagner JJ, Unger JK.  
Artif Organs. 2011 Jun;35(6): E108-18.

Central area for induction of anesthesia and job satisfaction.

Foehre B, von Heymann C, **Deja M**, MacGuill M, Lange LF, Krampe H, Wernecke KD, Spies C.  
Acta Anaesthesiol Belg. 2011;62(1): 15-21.

Recommendations on basic requirements for intensive care units: structural and organizational aspects.

Valentin A, Ferdinande P; **ESICM Working Group on Quality Improvement**.  
Intensive Care Med. 2011; 37(10): 1575-87.

Prevention of ventilator-associated pneumonia: what`s evidence-based treatment?

**Deja M**, Trefzer T, Geffers C.  
Anesthesiol Intensivmed Notfallmed Schmerzther. 2011 Sep;46(9): 560-7.

One fits all and never change a winning team: the need for balanced strategies in antibiotic therapy.

Tafelski S, Nachtigall I, **Deja M**, Spies CD.  
Crit Care Med 2011; 39(3): 607-8; author reply 609.

Critical illness myopathy is frequent: accompanying neuropathy protracts ICU discharge.

Koch S, Spuler S, **Deja M**, Bierbrauer J, Dimroth A, Behse F, Spies CD, Wernecke KD, Weber-Carstens S.  
J Neurol Neurosurg Psychiatry. 2011; 82(3): 287-93.

## 2010

Risk factors in Critical illness myopathy (CIM) during the early course of critical illness: a prospective observational study.

Weber-Carstens S, **Deja M\***, Koch S, Spranger J, Bubser F, Wernecke KD, Spies CD, Spuler S, Keh D.  
Critical Care, 14 (3), 2010; R119

Changes in hepatic blood flow during whole body hyperthermia. International Journal of Hyperthermia.

**Deja M\***, Ahlers O, MacGuill M, Wust P, Hildebrandt B, Riess H, Kerner T.  
Int J hyperthermia 2010; 26(2): 95-100.

Magret M, Amaya-Villar R, Garnacho J, Lisboa T, Díaz E, Dewaele J, **Deja M**, Manno E, Rello J; EU-VAP/CAP Study Group.

Ventilator-associated pneumonia in trauma patients is associated with lower mortality: results from EU-VAP study.

J Trauma. 2010 Oct;69(4): 849-54

Determinants of Choice and Prescription Patterns in Empiric Antibiotic Therapy for HAP/VAP.

Rello J, Ulldemolins Pharmd M, Lisboa T, Koulenti D, Mañez R, Martin-Loeches I, De Waele JJ, Putensen C, Guven M, **Deja M**, Diaz E; and the EU-VAP/CAP Study Group.

Eur Respir J. 2010 Sep 16.

## 2009

Nonexcitable muscle membrane predicts intensive care unit-acquired paresis in mechanically ventilated, sedated patients.

Weber-Carstens S, Koch S, Spuler S, Spies CD, Bubser F, Wernecke KD, **Deja M**.  
Critical Care Medicine 2009; 37: 2632-2637.

Hypercapnia in late-phase ALI/ARDS: providing spontaneous breathing using pumpless extracorporeal lung assist.

Weber-Carstens S, Bercker S, Hommel M, **Deja M**, MacGuill M, Dreykluft C, Kaisers U.  
Intensive Care Medicine, 35, 2009, 1100–1105.

Spectrum of practice in the diagnosis of nosocomial pneumonia in patients requiring mechanical ventilation in European intensive care units.

Koulenti D, Lisboa T, Brun-Buisson C, Krueger W, Macor A, Sole-Violan J, Diaz E, Topeli A, DeWaele J, Carneiro A, Martin-Loeches I, Armaganidis A, Rello J; **EU-VAP/CAP Study Group**.  
Crit Care Med. 2009; 37(8): 2360-8.

Impact of adherence to standard operating procedures for pneumonia on outcome of intensive care unit patients.

Nachtigall I, Tamarkin A, Tafelski S, **Deja M**, Halle E, Gastmeier P, Wernecke KD, Bauer T, Kastrup M, Spies C.  
Critical Care Medicine 2009; 37: 159-66.

Fortschritte bei der antimikrobiellen Therapie nosokomialer Infektionen.

**Deja M**, Trefzer T, Halle E, Spies C.  
Intensiv- und Notfallbehandlung 2009; 34: 26-35.

Prevention measures of ventilator-associated pneumonia.

**Deja M**, Spies C.  
Critical care Medicine 2009; 7(1):330-2. Editorial.

## 2008

Inhalation of the ETA receptor antagonist LU-135252 selectively attenuates hypoxic pulmonary vasoconstriction.

Petersen B, **Deja M\***, Bartholdy R, Donaubaue B, Laudi S, Francis RC, Boemke W, Kaisers U, Busch T.  
American Journal of Physiology. Regulatory, Integrative and Comparative Physiology, 294, 2008, R601–605.

Bronchial fistulae in ARDS patients: management with an extracorporeal lung assist device.

Hommel M, **Deja M**, von Dossow V, Diemel K, Heidenhain C, Spies C, Weber-Carstens S.  
European Respiratory Journal, 32 (6), 2008, 1652-5.

Inhalation of an endothelin receptor A antagonist attenuates pulmonary inflammation in experimental acute lung injury.

Kalk P, Senf P, **Deja M**, Petersen B, Busch T, Bauer C, Boemke W, Kaisers U, Hoher B.  
Canadian Journal of Physiology and Pharmacology, 86 (8), 2008, 511-15.

Regional hyperthermia of the abdomen in conjunction with chemotherapy for peritoneal carcinomatosis: evaluation of two annular-phased-array applicators.

Cho CH, Wust P, Hildebrandt B, Issels RD, Sehouli J, Kerner T, **Deja M**, Budach V, Gellermann J.  
International Journal of Hyperthermia, 24 (5), 2008, 399-408 2.

Adherence to standard operating procedures is crucial for intensive care unit survival of elderly patients.

Nachtigall I, **Deja M**, Tafelski S, Tamarkin A, Schaller K, Halle E, Gastmeier P, Wernecke KD, Bauer T, Kastrup M, Spies C.  
Journal of International Medical Research, 36 (3), 2008, 438-59.

Epidemiology and Pathophysiology of the acute respiratory distress syndrome (ARDS).

**Deja M**, Lojewski C, Hommel M, Menk M, Weimann J.

Anästhesiologie Intensivmedizin Notfallmedizin Schmerztherapie, 43 (11-12), 2008, 758-66.

Evidence-based therapy of severe acute respiratory distress syndrome: an algorithm-guided approach.

**Deja M**, Hommel M, Weber-Carstens S, Moss M, von Dossow V, Sander M, Pille C, Spies C.

Journal of International Medical Research 2008; 36 (2): 211-21.

## 2007

Hyperactive delirium and blood glucose control in critically ill patients.

Heymann A, Sander M, Krahne D, **Deja M**, Weber-Carstens S, MacGuill M, Kastrup M, Wernecke KD, Nachtigall I, Spies CD.

Journal of International Medical Research 2007; 35 (5): 666-77.

Impact of bolus application of low-dose hydrocortisone on glycemic control in septic shock patients.

Weber-Carstens S, **Deja M**, Bercker S, Dimroth A, Ahlers O, Kaisers U, Keh D.

Intensive Care Medicine 2007; 33 (4): 730-3.

Alteration of Transthyretin Microheterogeneity in Serum of Multiple Trauma patients.

Gericke B, Raila J, **Deja M**, Rohn S, Donaubauber B, Nagl B, Haebel S, Schweigert FJ, Kaisers U.

Biomarker Insights 2007; 2: 299-306.

Strategies in the treatment of infections with antibiotics in intensive care medicine.

**Deja M**, Nachtigall I, Halle E, MacGuill M, Spies CD.

Anästhesiologie Intensivmedizin Notfallmedizin Schmerztherapie, 42 (2), 2007, 108-115.

Pumpless extracorporeal lung assist in patients with acute respiratory distress syndrome.

Bercker S, Weber-Carstens S, **Deja M**, Kaisers U.

Critical Care Medicine 2007; 35 (1): 326. Authors reply.

Standards, guidelines and recommendations for antibiotic therapy.

Spies CD, Nachtigall I, Kastrup M, **Deja M**.

Anaesthesiologie Intensivmedizin Notfallmedizin Schmerztherapie 2007; 42(2): 108-10.

An appendix on the strategies for the prescription of antibiotics in intensive care: standards for microbiological diagnostics.

**Deja M**.

Anästhesiologie Intensivmedizin Notfallmedizin Schmerztherapie 2007; 42 (2): 108-10.

## 2006

Gastrointestinal zygomycosis caused by *Mucor indicus* in a patient with acute traumatic brain injury.

**Deja M**, Wolf S, Weber-Carstens S, Lehmann TN, Adler A, Ruhnke M, Tintelnot K.

Medical Mycology 2006; 44 (7): 683-7.

Social support during intensive care unit stay might reduce the risk for the development of posttraumatic stress disorder and consequently improve health related quality of life in survivors of acute respiratory distress syndrome.

**Deja M\***, Denke C, Weber-Carstens S, Schroeder J, Pille CE, Hokema F, Falke KJ, Kaisers U.

Critical Care 2006; 10 (5), R 147.

Endothelin-1 influences the efficacy of inhaled nitric oxide in experimental acute lung injury.  
Busch T, Petersen B, **Deja M**, Donaubaueer B, Laudi S, Jaumann S, Bercker S, Boemke W, Kaisers U.  
Experimental Biology and Medicine 2006; 231 (6): 974-8.

Low-dose inhalation of an endothelin-A receptor antagonist in experimental acute lung injury: ET-1 plasma concentration and pulmonary inflammation.  
Donaubaueer B, Busch T, Lachmann R, **Deja M**, Petersen B, Francis R, Träger A, Ebsen M, Boemke W, Kaisers U.  
Experimental Biology and Medicine 2006; 231 (6): 960-6.

Implementation of standard operating procedures for the initial empirical antimicrobial therapy for adults--a new computer program at the University Hospital Charité.  
Nachtigall I, **Deja M**, Halle E, Kastrup M, Weber-Carstens S, Krieg H, Puhlmann B, Eggers V, Heymann A, Rohr J, Viviano E, von Dossow V, MacGuill M, Sander M, Göbel U, Spies C.  
Anesthesiologie Intensivmedizin Notfallmedizin Schmerztherapie 2006; 41 (10): 626-35.

## 2005

Goal-directed therapy of cardiac preload in induced whole-body hyperthermia.  
**Deja M**, Hildebrandt B, Ahlers O, Riess H, Wust P, Gerlach H, Kerner T.  
Chest 2005; 128 (2): 580-6.

Stress induced changes in lymphocyte subpopulations and associated cytokines during whole body hyperthermia of 41.8-42.2 degrees C.  
Ahlers O, Hildebrandt B, Dieing A, **Deja M**, Böhnke T, Wust P, Riess H, Gerlach H, Kerner T.  
European Journal of Applied Physiology 2005; 95 (4): 298-306.

Computed tomographic criteria as expected effect to inhaled nitric oxide in patients with severe acute respiratory distress syndrome.  
Röttgen R, Busch T, Lohbrunner H, Einfeld H, **Deja M**, Schroeder RJ, Weber-Carstens S, Falke KJ, Felix R, Kaisers U.  
RöFo 2005; 177 (6): 805-11.

Critical illness polyneuropathy and myopathy in patients with acute respiratory distress syndrome.  
Bercker S, Weber-Carstens S, **Deja M**, Grimm C, Wolf S, Behse F, Busch T, Falke KJ, Kaisers U.  
Critical Care Medicine 2005; 33(4): 711-5.

## 2004

Inhalation of the endothelin-A receptor antagonist LU-135252 at various doses in experimental acute lung injury.  
**Deja M**, Busch T, Wolf S, Donaubaueer B, Petersen B, Skomrock J, Boemke W, Kaisers U.  
Journal of Cardiovascular Pharmacology 2004; 44: S151-55.

Whole-body hyperthermia in the scope of von Ardenne's systemic cancer multistep therapy (sCMT) combined with chemotherapy in patients with metastatic colorectal cancer: a phase I/II study.  
Hildebrandt B, Dräger J, Kerner T, **Deja M**, Löffel J, Stroszczyński C, Ahlers O, Felix R, Riess H, Wust P.  
International Journal of Hyperthermia 2004; 20 (3): 317-33.

Inhaled nitric oxide for the treatment of ARDS.  
Lohbrunner H, **Deja M**, Busch T, Spies CD, Rossaint R, Kaisers U.  
Anaesthesist 2004; 53: 771-783.

Inhaled nitric oxide in acute lung injury.

Kaisers U, **Deja M**, Boemke W, Busch T.

The Journal of the American Medicine Association 2004; 292 (3): 327-28, authors reply.

## 2003

Reduced nitric oxide in sinus epithelium of patients with radiologic maxillary sinusitis and sepsis.

**Deja M\***, Busch T, Bachmann S, Riskowski K, Campean V, Wiedmann B, Schwabe M, Hell B, Pfeilschifter J, Falke KJ, Lewandowski K.

American Journal of Respiratory and Critical Care medicine 2003; 168(3): 281-6.

Onset of acute respiratory distress syndrome following severe pulmonary hemorrhage in a patient with anti-neutrophil cytoplasmic antibody associated vasculitis.

Steinau F, **Deja M**, Weber-Carstens S, Busch T, Kaisers U.

Intens Care Med 2003; 29(3): 504.

Modulation of pulmonary vascular tone in ARDS.

Kaisers U, Busch T, **Deja M**, Gerlach H, Falke KJ.

In: Lefant C, Matthay M, Eds. Lung Biology in health and Disease. Vol 179: Acute Respiratory Distress Syndrome. New York: Marcel Dekker 2003, pp465-508.

Selective pulmonary vasodilation in acute respiratory distress syndrome.

Kaisers U, Busch T, **Deja M**, Donaubaue B, Falke KJ.

Critical Care Medicine 2003;31: S337-42.

Postoperative Management after thoracic surgery: extracorporeal ventilatory support.

Von Dossow V, **Deja M**, Zwissler B, Spies C.

In: Kaplan JA, Slinger PD. Principles and Practice of Anesthesia for Thoracic Surgery. 2003.

## 2002

The inhaled ET(A) receptor antagonist LU-135252 acts as a selective pulmonary vasodilator.

**Deja M**, Wolf S, Busch T, Petersen B, Jaghziez U, Boemke W, Kaisers U.

Clinical Science 2002; 103, Suppl 1: 21S-4S.

Monitoring arterial blood pressure during whole body hyperthermia.

Kerner T, **Deja M**, Ahlers O, Hildebrandt B, Dieing A, Riess H, Wust P, Gerlach H.

Acta Anaesthesiologica Scandinavica 2002; 46 (5): 561-6.

Multiorgan failure due to chronic granulomatous disease.

Rüggeberg A, **Deja M**, Kaisers U, Steinmüller T, Keske U, Falke KJ.

Anaesthesist 2002; 51(9): 731-4.

Immunonutritive enteral feeding in the critically ill

Steinau F, **Deja M**, Wolf S, Busch T, Kaisers U.

Anaesthesist, 51 (10), 2002, 843-52.

## 2001

"Ideal PEEP" is superior to high dose partial liquid ventilation with low PEEP in experimental acute lung injury.

Wolf S, Lohbrunner H, Busch T, **Deja M**, Weber-Carstens S, Donaubaue B, Sterner-Kock A, Kaisers U.

Intensive Care Medicine 2001; 27 (12): 1937-48.

Small dose of exogenous surfactant combined with partial liquid ventilation in experimental acute lung injury: effects on gas exchange, hemodynamics, lung mechanics, and lung pathology. Wolf S, Lohbrunner H, Busch T, Sterner-Kock A, **Deja M**, Sarrafzadeh A, Neumann U, Kaisers U. British Journal of Anaesthesia, 87 (4), 2001, 593-601.

Ganzkörper-Hyperthermie bei Keimzelltumoren.  
Hildebrandt B, Wust P, Rick O, Kerner T, Loffel J, **Deja M**, Ahlers O, Dieing A, Weinknecht S, Bechstein WO, Siegert W, Felix R, Riess H.  
Onkologie 2001; 7(3) 324-330.

## **2000**

Feasibility and analysis of thermal parameters for the whole-body-hyperthermia system IRATHERM-2000.  
Wust P, Riess H, Hildebrandt B, Loffel J, **Deja M**, Ahlers O, Kerner T, von Ardenne A, Felix R.  
International Journal of Hyperthermia 2000; 16 (4):325-39.

## **1999**

Kerner T, **Deja M**, Ahlers O, Loffel J, Hildebrandt B, Wust P, Gerlach H, Riess H. Whole body hyperthermia: a secure procedure for patients with various malignancies?, Intensive Care Medicine 1999; 25 (9): 959-65.

## Vorträge 15/16

26. Symposium Intensivmedizin & Intensivpflege am 25.02.1016 „Die Umgebung des Patienten - Lärm, Licht, Patientenperspektiven“ in Bremen

Heidelberger Intensivmedizinisches Forum Intensivtherapie, HIFIT, am 17. 01.2015  
„Antibiotika und Antiinfektiva – Wann, welche und wie?“ in Heidelberg

11. Stuttgarter Intensivkongress, SIT am 04.02.2015 „ Healing Environment: Lärm, Licht, Patientenperspektiven“ in Stuttgart

25. Symposium Intensivmedizin & Intensivpflege „ Epidemiologie und Risikofaktoren für invasive Pilzinfektionen in der Intensivmedizin“ am 18.02.15 und „Therapie schwerer bakterieller Infektionen auf der Intensivstation“ am 19.02.2015 in Bremen

Führungskräftekongress Interdisziplinäre Intensivmedizin (FII 2015) am 27. 02.2015  
„Antimikrobielle Strategie 2014“ in Berlin

Seminarkongress Interdisziplinäre Intensivmedizin „Epidemiologie, Diagnostik und Therapie erwachsener Patienten mit nosokomialer Pneumonie: Die neue S3 Leitlinie“ am 02.03.2015 in Garmisch Patenkirchen

6. ICW-Süd/HWX-Kongress „Healing Environment: Licht, Lärm und Hygiene“ am 05.03.2015 in Würzburg

Paul Ehrlich Gesellschaft, Frühjahrstagung der Sektion Antimykotische Chemotherapie „ Aspergillus ein intensives Problem“ am 13. März 2015 in Bonn

Hallenser Update Intensivmedizin „Das 1x1 der antiinfektiven Therapie“ am 14.03.2015 in Halle

62. Jahrestagung der Deutschen Gesellschaft für Anästhesiologie und Intensivmedizin e.V. (DAC) „Therapieoption der nosokomialen Pneumonie: Leitlinien und individuelle Therapie“ am 09. Mai 2015 in Düsseldorf

European Society of Anaesthesia (ESA) “Can we improve our clinical practice. An update from the EU\_VAP database” am 29.05.15 in Berlin

Hamburger Intensivtage, (HIT) „ Sinn und Unsinn von Hygienemaßnahmen in der Intensivmedizin“ am 30.05.2015 in Hamburg

Hauptstadtkongress 2015 „Sepsis-Scores, TDM, antibiotic stewardship“ am 11. Juni in Berlin

Carl Gustav Carus Universitätsklinikum Dresden „Komplikationen invasive Mykose beim hämatologischen Patienten: Welche Vorgehensweise?“ am 15.06.2015 in Dresden

Kühlungsborner Fortbildungstag „Rationale Antiinfektivtherapie- endlich verständlich“ am 14.09.15 in Kühlungsborn

Berliner Anästhesiekolloquien „Benachteiligte in Anästhesie und Intensivmedizin“ am 01.07.15 in Berlin

Antibiotic Stewardship Kurs (ABS) Charité „Auswahl der richtigen Dosierung II: Bioverfügbarkeit, TDM, kontinuierliche Infusion, Dosisindividualisierung aus Sicht des Kliniklers“ 05.09.2015 in Berlin

Klinikum Braunschweig „Management von Infektionen mit MRE“ am 15.10.2015 in Braunschweig

Kongressnachlese „Pneumonie, Sepsis, Intensivmedizin“ am 04.11.15 in Berlin

51. Repetitorium Intensivmedizin der Deutschen Akademie für Anästhesiologische Fortbildung (DAAF) „Acute Respiratory Distress Syndrome: Behandlungsalgorithmus“ am 17.11.2015 in Augsburg
